

The price-performance ratio of the ASW loudspeakers is exceptional. This has been confirmed through all leading audio magazines. Design is connected with a wide number of vanishing and high quality woods together with a strongly developed musicality. In this paper you will find a summary of our latest reviews. Enjoy browsing through this paper.

Cantius 404

Hifi Test designation (4/2004)

...between the two woofers, you will find, accordingly to the d'apollito style, the silk-softdome tweeter. With a diameter of 30 mm. it looks voluminous, but necessary, as the 18 db crossover orders him to reproduce everything between 25- and 2 Kiloherz where is the bass ? The staggering answer is coming from the 2 aluminium woofers ...

....my advice: get them !

1+

HiFi Test designation (3/2004)

...no matter what style of music – the Genius 100 is playing bright, precise and dynamic ... the biggest surprise however came from the bass quality, exceptional for such a small cabinet....

The Genius 100 is a uncomplicated bookshelf speaker taken besides the size the price into consideration you may not deny this speaker a certain genius...

Shameless-shamelessly good

Opus M / Opus SW 250

Stereoplay (04/03)

A fine, not too small home-theater set with satellites made from solid wood. Balanced in tone and full music capabilities with excellent articulation and substantial reserves for dynamics. What a flat and well adjusted subwoofer.

DVD Vision (6/2004)

...with cabinets made from solid wood, excellent craftsmanship and a almost unlimited choice in finishing, the loudspeaker manufacturer from Vreden is creating new standards in....

For it's size, the Opus M bookshelf speaker is a real heavy weighter....these 5 identical speakers are creating a breathtaken soundstage and are playing so spacious and full-grown.....

TECHNISCHE DATEN / WERTUNG

Genius 400

HiFi Test designedition (1/2004)

According to the inheritance of Gropius and Co. ASW did not make use of needless ornaments, which resulted in a optical plain floorstander, that is compatitable for any livingroom ... carbonfibre cones, silver cabling, low impedance crossover networks, high quality connectors and first class components". Period. So (appearantly) simple is the recipe for a top loudspeaker

... Full, punctual and effortless reproduces bass, immense dynamic and brilliant, but in no case sharp highs, was creating a relaxing delight on the couch in the studio

... Less is more, the Genius 400 lives up to this Bauhaus philosophy audibly, and visually. Only regarding the price, ASW goes into another direction: are the original of the design school being sold at horror prices, these loudspeakers are a real bargain.

Genius 100 / Genius AS I

ASW Genius

+ warm, silky sound, excellent finishing, high flexibility

- subwoofer is a bit big

ASW has done a good job with the Genius set. The small compact speakers are a match for all assignments and do convince through their naturalness

Price/
Performance  **very good**

DVD & Surround test (06/02)

This set just has class.... despite the small volume, the “ little ones “ can really go into the big...the AS-I picks up at 80 Hertz perfectly.... striking in sound of this ASW set is the silky, softly sound....the Genius are playing with a pleasing warmth..... If you are swearing to allround qualities, you will not be disappointed with ASW. This set is convincing in every situation....

Cantius VI

Audio (11/00)

The 50 best loudspeakers in the world
These presented loudspeakers have fought severely, have been measured to others, and won..
They belong to the best in their priceclass...and absolutely speaking they all delivered top-performances....every mentioned loudspeaker was able to “ touch “, went over and beyond the standard in one or more disciplines, and proved “ character “

ASW CANTIUS VI

Sound	very good	79
Finishing	excellent	
Topquality		

Audio (12/99)

Where was saved ?....several Audio editors have been looking for compromises, but in vain. ...the Cantius VI is clearly the captain of this test-field....a gathering of luxury. Visible, audible and compared to the other loudspeakers a clear highlight....
